Simplify

From Desktop to Datacentre

Eaton has solutions to cover any application with their 3-tiered range of UPS products to cater for every budget.

Essential

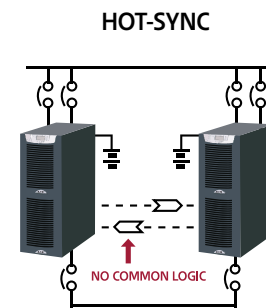

Superior

Premier

Innovate

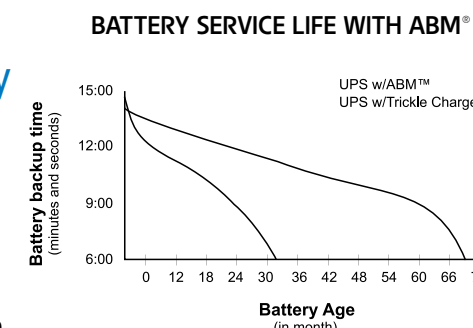

Hot-Sync Technology

offers true wireless parallel capability and the elimination of a system-level single point of failure, resulting in higher system-level reliability.

ABM® Technology

Advanced Battery Management (ABM®) involves cyclic charging that reduces overcharging of battery and increases battery life.
